

Creating a Storage Account

1. Use the below script to create a new storage account.
2. Just remember one thing that the storage account require a unique name.

```
13_storageaccount.ps1 •
13_storageaccount.ps1 > ...
1 $resourceGroup="app-grp"
2 $location="North Europe"
3 $accountSKU="Standard_LRS"
4 $storageAccountName="demostorage4422886603"
5 $storageAccountKind="StorageV2"
6
7 New-AzStorageAccount -ResourceGroupName $resourceGroup -Name $storageAccountName `
8 -Location $location -Kind $storageAccountKind -SkuName $accountSKU
```

3. In the output you can see that our storage account has been created.

```
PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL PORTS POSTMAN CONSOLE Code
[Running] powershell -ExecutionPolicy ByPass -File "d:\AzurePowerShell\13_storageaccount.ps1"
